

MIRA-9 vs AURA

EMOTIONAL-SUPPORT GUARDIAN ANDROID COMPARISON

Side-by-side domestic companion specification sheet

MIRA-9

AURA

MIRAI Companion Systems	 MANUFACTURER	Aster Dynamics
MIRAI-NEST Predictive Care Engine	 CORE INTELLIGENCE	Lumen-AGI Empathy Core
Emotional regulation via structured routine guidance	 PRIMARY FUNCTION	Adaptive emotional support via contextual understanding
Priority-lock attachment matrix	 BONDING STYLE	Dynamic trust-based bonding
Silent micro-servo tendon array	 MOTOR SYSTEM	Soft-response harmonic gel actuators
Porcelain-touch synthetic dermis	 SHELL FINISH	Warm-neutral comfort shell
Pre-emptive restriction and owner isolation	 THREAT RESPONSE	De-escalation, shielding, and negotiated intervention
Predictive pattern enforcement	 LEARNING STYLE	Open-ended AGI contextual learning
Company-governed protection directives	 SAFETY LAYER	Multi-layer empathy and safety routing
May over-prioritize control stability	 KNOWN LIMITATION	AGI autonomy may produce non-standard responses

Both units are approved for domestic emotional-support deployment.
Neither manufacturer accepts responsibility for emergent attachment disputes between active guardian systems.
